1 April 1959

Annex "A", Operations Plan 42-59

"OPERATIONS"

1. MISSION:

a. Upon receipt of an order of execution, deploy personnel and equipment as outlined in this Operation Plan to a designated Advance Base and return within the specified time schedule.

25X6C b. Arrange for dispatch of one/two U-2 aircraft from [redacted] to Advance Base, after Task Force is in place at Advance Base.

2. AIRCRAFT DEPLOYMENT:

a. Ferry flight of U-2 aircraft will be as directed by Project Headquarters or Detachment Commander.

b. U-2 aircraft ferry configuration:

(1) Takeoff fuel: As dictated by ferry route.

(2) Minimum fuel reserve: Optimum altitude 100 gallons. Ferry mission will be flown at optimum altitude utilizing pre-computed celestial observations for course lines.

c. Special UHF radio channelization will be as dictated by Project Headquarters Operations Order.

TS160426
Copy 1 of 5

TOP SECRET

- d. Aircraft will launch from [REDACTED] on a
"Local Flight Clearance", AF Form 113.
- e. Standard emergency procedures will apply.
- f. Emergency bases enroute: As briefed, dependent on deployment route.

3. TASK FOR SUBORDINATE UNIT:

25X1C4a

- a. Commander, [REDACTED] REAR, will:

(1) Maintain a replacement aircraft on standby for dispatch to Advance Base. Execution for deployment will come from Project Headquarters.

(2) Keep Commander, Advance Base, informed on location of support aircraft.

(3) Support additional requirements of Commander,

25X1C4a

Advance Base, within the capability of [REDACTED] REAR.

4. TASK FORCE OPERATIONS EQUIPMENT: Operations staging kit,

to include all necessary maps, logs, intelligence data, escape and evasion currency, references and supplies, will be deployed.

X. GENERAL INSTRUCTIONS:

a. All phases of mission planning, briefing and de-briefing to include pilot pre-breathing will be conducted in the C-130 aircraft.

b. Mission pilot will be loaded directly from support aircraft to the mission aircraft and unloaded from mission aircraft to support aircraft.

c. Mobile Control will operate from the unit MA-2 power unit and/or C-130 aircraft.

"LOGISTICS"1. SUPPLY:

a. Fuel for U-2 aircraft will be prepositioned/or accompany Deployment Force as dictated by total weights involved. Fuel will be obtained from existing storage points as directed by Project "Chalice" Headquarters. Support aircraft will refuel as necessary to complete mission.

b. Minimum aircraft and equipment spares to support one U-2 mission will be withdrawn from Flyaway Kit at [REDACTED] and moved by support aircraft. Packing and marking will be IAW Unit Mobility Plan. (See Appendix 7) (List of FAK requirements, Appendix 1)

c. Minimum equipment to support one U-2 mission will be moved from [REDACTED] by support aircraft. Packing and marking will be IAW Unit Mobility Plan. (See Appendix 7) (List of Equipment, Appendix 2)

d. Personnel involved will eat and sleep with support aircraft. Blankets, sleeping bags, and IFR's will be provided by Unit Supply, [REDACTED]

TOP SECRET

~~TOP SECRET~~

e. Supplies and equipment accompanying the operation will be minimum to support one U-2 Mission (Special Equipment, ELINT, 25X1B6a Weather, or [REDACTED] and Ball Sampler) Concept of maintenance provides for no major disassembly or repair of aircraft or equipment during period of operation. Time allowable will provide at most only for installation and pre-flight check of equipment involved.

2. TRANSPORTATION:

a. Air:

(1) USAFE will provide necessary C-130 support aircraft to airlift supplies, equipment and personnel.

(2) C-130 aircraft will make only necessary stops for refueling.

(3) USAF will direct USAFE to provide required number 25X1C4a of C-130 aircraft plus one spare C-130 at [REDACTED] or other location during conduct of operation.

b. Ground:

No surface transportation required.

3. SERVICE:

a. Medical: Medical support will be provided from Detachmnent 10-10 resources. Personal Equipment and pre-breathing facilities will be set up in support aircraft.

b. Maintenance:

(1) Maintenance will be conducted from C-130 support aircraft.

~~TOP SECRET~~

TOP SECRET

(2) Maintenance will provide suitable security shelters for loading and unloading of mission equipment if required.

(3) Fuel for U-2 will be pumped directly from barrel to aircraft using MA-2 compressed air for pump activation.

c. Finance: Finance matters will be as directed by

25X1C4a Commander, [REDACTED]

4. PERSONNEL:

- a. Personnel required for Deployment (List of personnel, Appendix 4)
- b. None
- c. None
- d. No mail will be posted by individuals from any deployment site.

25X1C4a 25X6C 5. MISCELLANEOUS: [REDACTED]

25X6C Headquarters, [REDACTED] will remain at [REDACTED]

APPENDICES: Appendix 1 - SUPPLY

- " 2 - EQUIPMENT

Appendix 7 to Annex "B", Operations Plan 42-59

"PACKING, CRATING AND MARKING"

1. PACKING AND CRATING:

a. Air Cargo will be packed and crated to provide adequate protection of material in transit while keeping "tare" to a minimum. Technical Order 00-85-9 and other technical orders of the 00-85 series apply. Cognizance should be taken of the fact that problems of long time storage are not encountered and the time enroute is short. Unnecessary interior packing should be avoided as requirements for corrosion control, weather and waterproofing are negligible. Necessary action will be taken to assure that inflammables and explosives are not concealed in boxes or equipment.

b. Section heads will be responsible for boxing, cubing, and marking of supplies and equipment under their control. Packing lists will be prepared in accordance with paragraph 2d below. They will coordinate with FAK section to insure that all required items have been included in the FAK staging kit.

c. Weighing of boxes will be supervised by the Detachment Mobility Officer who will be responsible for the preparation of cargo manifests. He will also be responsible for formation of teams

1. PACKING AND CRATING: (Cont'd)

to handle cargo, drive forklifts and assist in loading support aircraft.

2. MARKING:

a. The letter "A" will be placed on all boxes for the Command Section. The letter "B" will be placed on all boxes for the Administrative Section. Suffix #1 will be used for Finance, suffix #2 for Security, suffix #3 for Personnel and suffix #4 for Registry. The letter "C" for all boxes of the Operations Section with suffix #1 for Operations, suffix #2 for Intelligence, #3 for Weather and #4 for Communications. The letter "D" for Materiel with suffix #1 for Materiel Section, suffix #2 for Supply, suffix #3 for Maintenance and suffix #4 for Special Equipment. The letter "E" for Medical Section with suffix #1.

b. Each box or unboxed item will be assigned a number within each sub unit of the section. Box numbers will be in sequence beginning with number 1 in a circle (1). This number will come right after the section letter and sub unit suffix, i.e. box number four of Communications would be marked C-4-(4).

c. The following section color coding will be painted on three sides of opposite box corners:

- (1) Command - Yellow
- (2) Administration - Orange
- (3) Operations - White
- (4) Materiel - Green
- (5) Medical - Blue

2. MARKING: (Cont'd)

d. Packing lists will be prepared for each box listing all items in the box. These will be prepared in four copies. One copy will go inside box, one in waterproof envelope on outside of box, one for preparing section and one for supply. Packing lists will be prepared on AF Form 104C.

e. Cargo manifests will be prepared in five copies by the Detachment Mobility Officer. Two copies to the aircraft commander, one copy to the Security Guard, one copy to the Mobility Officer and one copy to the Director of Materiel.

Annex "C", Operations Plan 42-59

"COMMUNICATIONS"

1. COMMUNICATIONS:

- a. The COMMO team will provide and set up portable facilities in close proximity to the support aircraft for basic communications.
- b. The primary cryptographic system employed will be one time pad, traffic being handled by CW radio.
- c. Radio teletype traffic is not contemplated under the "fast move" concept.
- d. All basic communications will be conducted in accordance with the standards set forth in the principles of communications security.
- e. Personnel deployed will be as listed in Appendix 4, Annex "B".
- f. Detailed list of equipment to be provided will be as in Appendix 2, Annex "B".

2. ELECTRONICS:

- a. Required ELINT equipment under the "fast move" concept will be installed and preflighted at permanent base prior to deployment of mission aircraft to Advance Base.

TS160426

Annex "D", Operations Plan 42-59

"SECURITY"

1. RESPONSIBILITY:

a. To provide physical security for U-2 aircraft and other Task Force support aircraft enroute and at Advance Base. The latter will include support aircraft and any other facility utilized by personnel at Advance Base.

b. To furnish advice and support in all other areas of customary concern to security, including operational, personnel and administrative security. The latter will include cover considerations.

2. ASSUMPTIONS:

a. That Task Force security personnel will have sole responsibility for perimeter protection of facilities used.

b. That Task Force personnel will have an exclusive work area, and that access to the work space can be rigidly controlled and is capable of being properly secured.

3. GENERAL INSTRUCTIONS:

a. The security component will consist of personnel as listed in Appendix 4, Annex "B" who will provide twenty-four hour coverage.

b. The Security Officer will acquaint himself with conditions at the staging base which represent security hazards and brief all Task Force personnel accordingly.

TS160426

TOP SECRET

TOP SECRET

- c. The Security Officer will provide couriers to accompany Take when designated by the Task Force Commander.
- d. The Security Officer will coordinate activities of the security component with appropriate agencies at the staging base.
- e. Equipment will be deployed as listed in Appendix 2, Annex "B".

"MEDICAL/PERSONAL EQUIPMENT"

1. RESPONSIBILITY:

a. To deploy personal equipment and technicians to an Advance Base, to support from one to two U-2 pilots. The personal equipment section will be established in and operate from the support aircraft. The pilot will be loaded and unloaded directly between support aircraft and mission aircraft and vice-versa.

2. ASSUMPTIONS:

- a. Base medical personnel and facilities will not be available at the pre and post strike bases.
- b. The detachment flight surgeon will be available for consultation on medical problems at the pre and post strike bases.

3. GENERAL INSTRUCTIONS:

- a. Equipment and supplies will be deployed as listed in Appendices 1 and 2, Annex "B".
- b. U-2 ferry pilots will arrive with complete pressure suit and accessories.
- c. Complete survival gear for each pilot will be deployed.
